

Data Cleaning & Preparation

Task 1- Change Log Report

DecodeLabs Internship -Data Analytics
Batch MAY 5 -JUNE 5 2026

Analyst:	Sahaji Perera	Date:	2026-05-10
Dataset:	Dataset_for_Data_Analytics.xlsx	Total Records:	1,200 rows 14 columns
Tool Used:	Microsoft Excel	Status:	All Phases Complete

Change Log

Change ID	Phase	Description	Impact	Status
CR001	Phase 1 Missing Values	309 blank CouponCode values filled with "NO_COUPON". Blank entries indicate customers who used no coupon.	Preserved all 1,200 records. Zero data loss.	Resolved
CR002	Phase 2 Duplicates	Full dataset audited for duplicate rows using Excel Remove Duplicates (all columns selected). No duplicates found.	Dataset integrity confirmed. 1,200 unique rows.	Resolved
CR003	Phase 3 Date Format	Date column verified and formatted to YYYY-MM-DD (ISO 8601 standard). All dates were already in correct format.	All 1,200 date values confirmed compliant.	Resolved
CR004	Phase 3 Number Format	UnitPrice and TotalPrice columns formatted to 2 decimal places for numeric precision consistency.	All price values now standardized to 2 decimals.	Resolved
CR005	Phase 3 Incorrect Data	Verified TotalPrice = Quantity x UnitPrice for all 1,200 rows using formula check. No calculation errors found.	0 incorrect values detected.	Resolved
CR006	Phase 3 Incorrect Data	Checked OrderStatus and PaymentMethod for invalid or unexpected entries. Only valid expected values present.	0 invalid entries found.	Resolved

Verification Gate — Pass Criteria

Criteria	Requirement	Result	Pass/Fail
Duplicate OrderIDs	0% error rate	0 duplicates found	PASS
Date Format Errors	0% error rate	0 format errors found	PASS
Missing Values	All handled	309 imputed — 0 remaining	PASS
Number Precision	2 decimal places	Applied to price columns	PASS
Calculation Errors	0 incorrect values	0 TotalPrice mismatches	PASS
Invalid Categories	0 invalid entries	0 unexpected status/payment values	PASS
